

**THE SAN FRANCISCO BAY.  
IT'S PART OF YOUR DAILY LIFE.**

## **SO USE LESS-TOXIC GARDEN PRODUCTS. THEY'RE SAFER FOR YOU AND THE BAY.**

It's no exaggeration that we live, work, and play in a watershed that flows to the Bay.

Most pesticides found in local creeks and the Bay are from residential yards. Using less-toxic pesticides and applying them when there is no danger of rain can greatly reduce pesticide pollution.
